

Mainstay Marine BI

Unlock the power of your data with Mainstay Marine BI – a fully integrated expansion module that transforms information into trusted intelligence, revealing the trends, risks and patterns that give your team a decisive edge.

Unlock Deeper Intelligence. Drive Safer, Smarter Operations.

Marine BI elevates marine assurance from reactive to proactive - bringing clarity, comparison and foresight across your workflows:

Predictive Analytics

Forecast based on built in algorithms and plan with certainty.

AI Powered Detection

Optimise machine learning to identify anomalies and patterns that manual review might miss.

Insight Led Policy

Refine risk policy and vetting decisions with data-backed performance trends.

Benchmarking & Trends

Compare fleets to industry standards, score performance and track change over time.

Marine BI adds a strategic layer to your Mainstay platform, transforming day to-day data into actionable foresight for charterers, operators and risk teams.

From Data Overload to Strategic Foresight

Marine BI acts as a smart layer over your Mainstay platform, pulling live feeds and historical records into a single analytics engine that reveals risks, opportunities and improvement areas.

Marine BI Features Breakdown

Vetting Analysis

Visualise how your internal vetting measures against benchmarks - spot decision anomalies, delays, performance gaps and common rejection trends.

Incident Analysis & Prediction

Link each incident to its original vet and assess vs. predicted risk; get incident likelihood scores that highlight vessels due for special attention.

Fleet Analysis

Benchmark against the global fleet or drill down into specific groups by owner, flag, trade lane, or even performance over time.

Global Trending & Visualisation

See industry patterns and performance shifts on intuitive dashboards - benchmarking you against the market to inform strategy.

Raising the Standard with Marine BI

Lead Don't Follow

Move from reactive assurance to predictive strategy.

Policy Built on Evidence

Use real-world data to refine rules and guardrails.

Pinpoint Risk Early

Focus time and resources where they'll drive impact.

Benchmark with Precision

Know how you compare against industry norms.

Fully Integrated Intelligence

All insights feed directly into your Mainstay workflow - from vetting and compliance to operations and terminals.

Make smarter, faster and more strategic decisions

Turn your marine data into foresight, book your Marine demo.
